MAYRELIS MOREJON

Miami, Fl | 786-202-1496 | mayrelismorejon21@gmail.com | https://github.com/Mayrelis

Seeking a full-time entry level development position that will allow me to utilize my problem-solving skills and attention to detail to further develop my abilities in the field of Computer Science.

EDUCATION

Florida International University, Miami, FL   **2017-2019**
BS - Computer Science   Overall GPA: 3.28/4.0

WORK- EXPERIENCE

Software Engineer   **October 2019 – Present**
ReloQuest; Weston, FL
- Enhanced legacy application by upgrading to Angular 8 framework along with HTML5, SCSS, TypeScript, Bootstrap, Node.js, NPM.
- Work in Test Driven Development environment, leveraging QA automation test suite to provide unit tests and integration tests for all new functionality.
- Designed, modified and assembled of content and templates using JavaScript, HTML, CSS and managed databases in MySQL.
- Taking an active role in structuring our single page applications to make them easy to maintain and to ensure they are highly modularized.

Software Quality Analyst   **April 2015 – September 2019**
Publicis Sapient; Miami, Florida
- Configure, set up, and management of test environments.
- Manually tested sites in various browsers such as Google Chrome, Microsoft Edge, Internet Explorer, Mozilla Firefox and Safari to ensure cross-browser compatibility and responsiveness.
- Functional, regression, load, compatibility, adaptability, responsive and automated tests (Selenium, Katalon Frameworks)
- Experience with automated test tools such as Selenium / Selenium WebDriver

Quality Assurance   **June 2014 -April 2015**
One Homecare Solutions; Miramar, Florida
- Responsible for managing and sending out all reauthorization request for each month
- Create / Edit / and run queries to verify the data in the database (SQL)
- Regression, Sanity and Manual Testing.
- Collaboration with other team members, software developers, and management to ensure comprehensive test coverage

TECHNICAL SKILLS: Java | C | C# | Python | HTML5 | HTML | CSS | JavaScript | Angular | Bootstrap | ASP.net | MySQL

PROJECTS:
BOLO web application: Worked as a part of a two-member team for my senior project. Deployed the application to Product Owner's Windows Server. Enabled secured communications with HTTPS for the frontend (Angular) and backend (Spring Boot). Modified design of the generated BOLO PDFs report and the BOLO views in the application

Bookstore Project: Worked as part of a five-member team to create an online web application bookstore. I developed the book details and rating features. We used agile methodology, scrum and for development we used Django, Python3 and SQLite.

Development of Networking application using Python and Socket Programming
- Interactive and collaborative painting application
- Tkinter library used for user interface

SKILLS & ABILITIES
- Bilingual speaker, proficient in English and Spanish
- Communication and organizational skills | Fast learner | Reliable | Self-driven.
- Solving problems | Critical thinking | Team-worker
